1. On four days during the period from 3 to 15 March 1954, air activity by single-engine aircraft was observed at Kamenz airfield. The aircraft made individual flights of about 30 minutes duration and flights in elements of twos. A maximum of 4 aircraft were observed aloft at the same time. At the beginning of March, the canvas-covered wooden buildings along the Kamenz-Zschornau road were no longer observed. Several boilers had arrived at the site of the field where buildings were under construction.<sup>1</sup>

2. There was little activity in the Panzer Kaserne. 25X1 motor vehicles were observed entering and leaving the barracks installation:
